**Physician's declaration:**

I declare that I clearly and comprehensibly explained to the examined person (his/her legal representative) the purpose, nature, anticipated benefit, consequences and possible risks of the above stated genetic laboratory testing. I also informed the examined person about possible results and consequences in case the examination would not be possible to perform with the intended purpose (it would fail) or it would not have the predicative value to fulfill the pursued effect. I have informed the examined person (legal representative) about the possible risks and consequences in case of rejection of this testing. The laboratory testing results will be confidential and shall not, without the consent of the examined person/legal representative, be disclosed to a third party if applicable legal regulations do not specify otherwise.

**Declaration of the examined person:**

I confirm I have been provided with genetic counseling concerning the genetic laboratory testing for the purpose stated above. All information have been provided and explained to me clearly and comprehensibly. I have had the opportunity to properly, untroubled and with sufficient time consider everything and I have had the opportunity to ask the doctor about everything I have judged as essential for me and useful to know and discuss with him/her everything what I did not understand. I have been provided with a clear and comprehensible answer to my questions. For the purpose stated above I agree that a sample from my body shall be taken and the following tests shall be performed:

- |                                      |  |                                     |
